## About Michael

Michael is a Program and Web developer and QA engineer, with full stack experience. Currently looking for an interesting technology company who embraces hiring new and energetic developers ready to fit into any team. Michael is open to a variety of roles, Q/A testing, developing and working with a team, depending on what is needed. Michael has been following a vigorous learning program since July 2014, after using self-paced practices with Code Academy and Free Code Camp and W3 Schools and Lynda.com.
